

# Emerging Technologies for Accessibility

Coleg Cambria Conference Centre, Kelsterton Road,  
Connah's Quay, Deeside, CH5 4BR

Wednesday 3 July 2019

## Agenda

The agenda for this day is slightly unusual, but will enable you to get the maximum input for your requirements.

The agenda is flexible, apart from breaks. At the start of the day you will be able to vote on which topics you would like to be included from the list below.

Please download the Vevox app in advance to take part <https://www.vevox.com>

## Topic Choices:

- TechAbility Standards – a guide to what good Assistive Technology provision looks like
- iPad Photography – using the iPad as a camera, extra hardware and apps for accessibility
- Using Your Voice to Type – Dragon, Google Drive, Windows, Mac
- Office 365 Learning Tools – inbuilt tools to aid literacy
- Making your Documents Accessible – it's digital, but can it be read?
- MindMapping - a study tool and creation tool
- Brain In Hand – support for Autism/Mental Health
- AT Assessments – where to start, what to consider
- Social Stories – Create supports for learning with the Pictello app
- Using your phone to read text and handwriting – iPhone and Android
- Microsoft Translator – live translation tool
- Reader mode on website – why Chrome isn't *always* the best browser!
- iPad Accessibility – Reading options, guided access, magnifier and more
- Android Accessibility – What options are available?
- Scanning Pens – Straightforward tool for reading text

Each topic will last for approximately 20 minutes, dependent on content.
